OBIETTIVI E SFIDE

- 👍 Gestione degli aspetti organizzativi e temporali
- 👍 Definizione ed implementazione dello SLA Management
- 👍 Scelta degli strumenti informatici
- 👍 Sistema inf.vo SLA Manager SW
- 👍 Template dei documenti

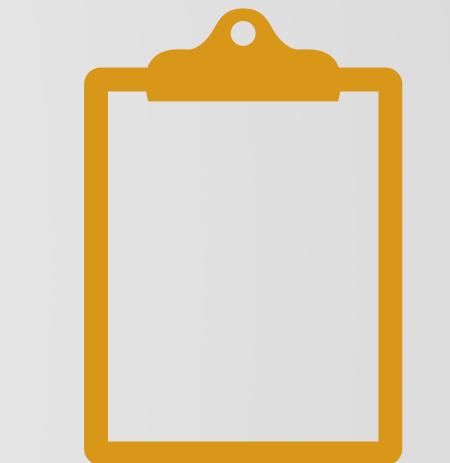

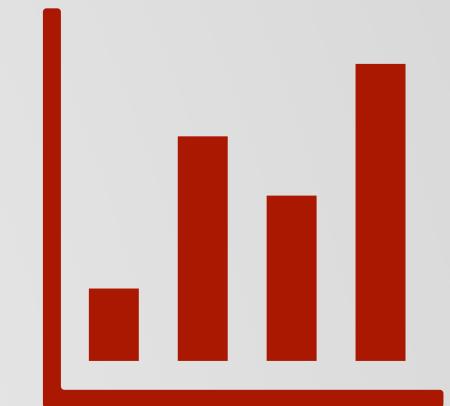

- 👍 Affinità tra SLA mgmt ed ITIL
- 👍 Riorganizzazione dei processi di business secondo ITIL
- 👉 Rispetto delle scadenze strette
- 👉 Rispetto immediato degli SL
- 👍 Coesione ed interoperabilità dello SLA Manager SW

PIANIFICAZIONE

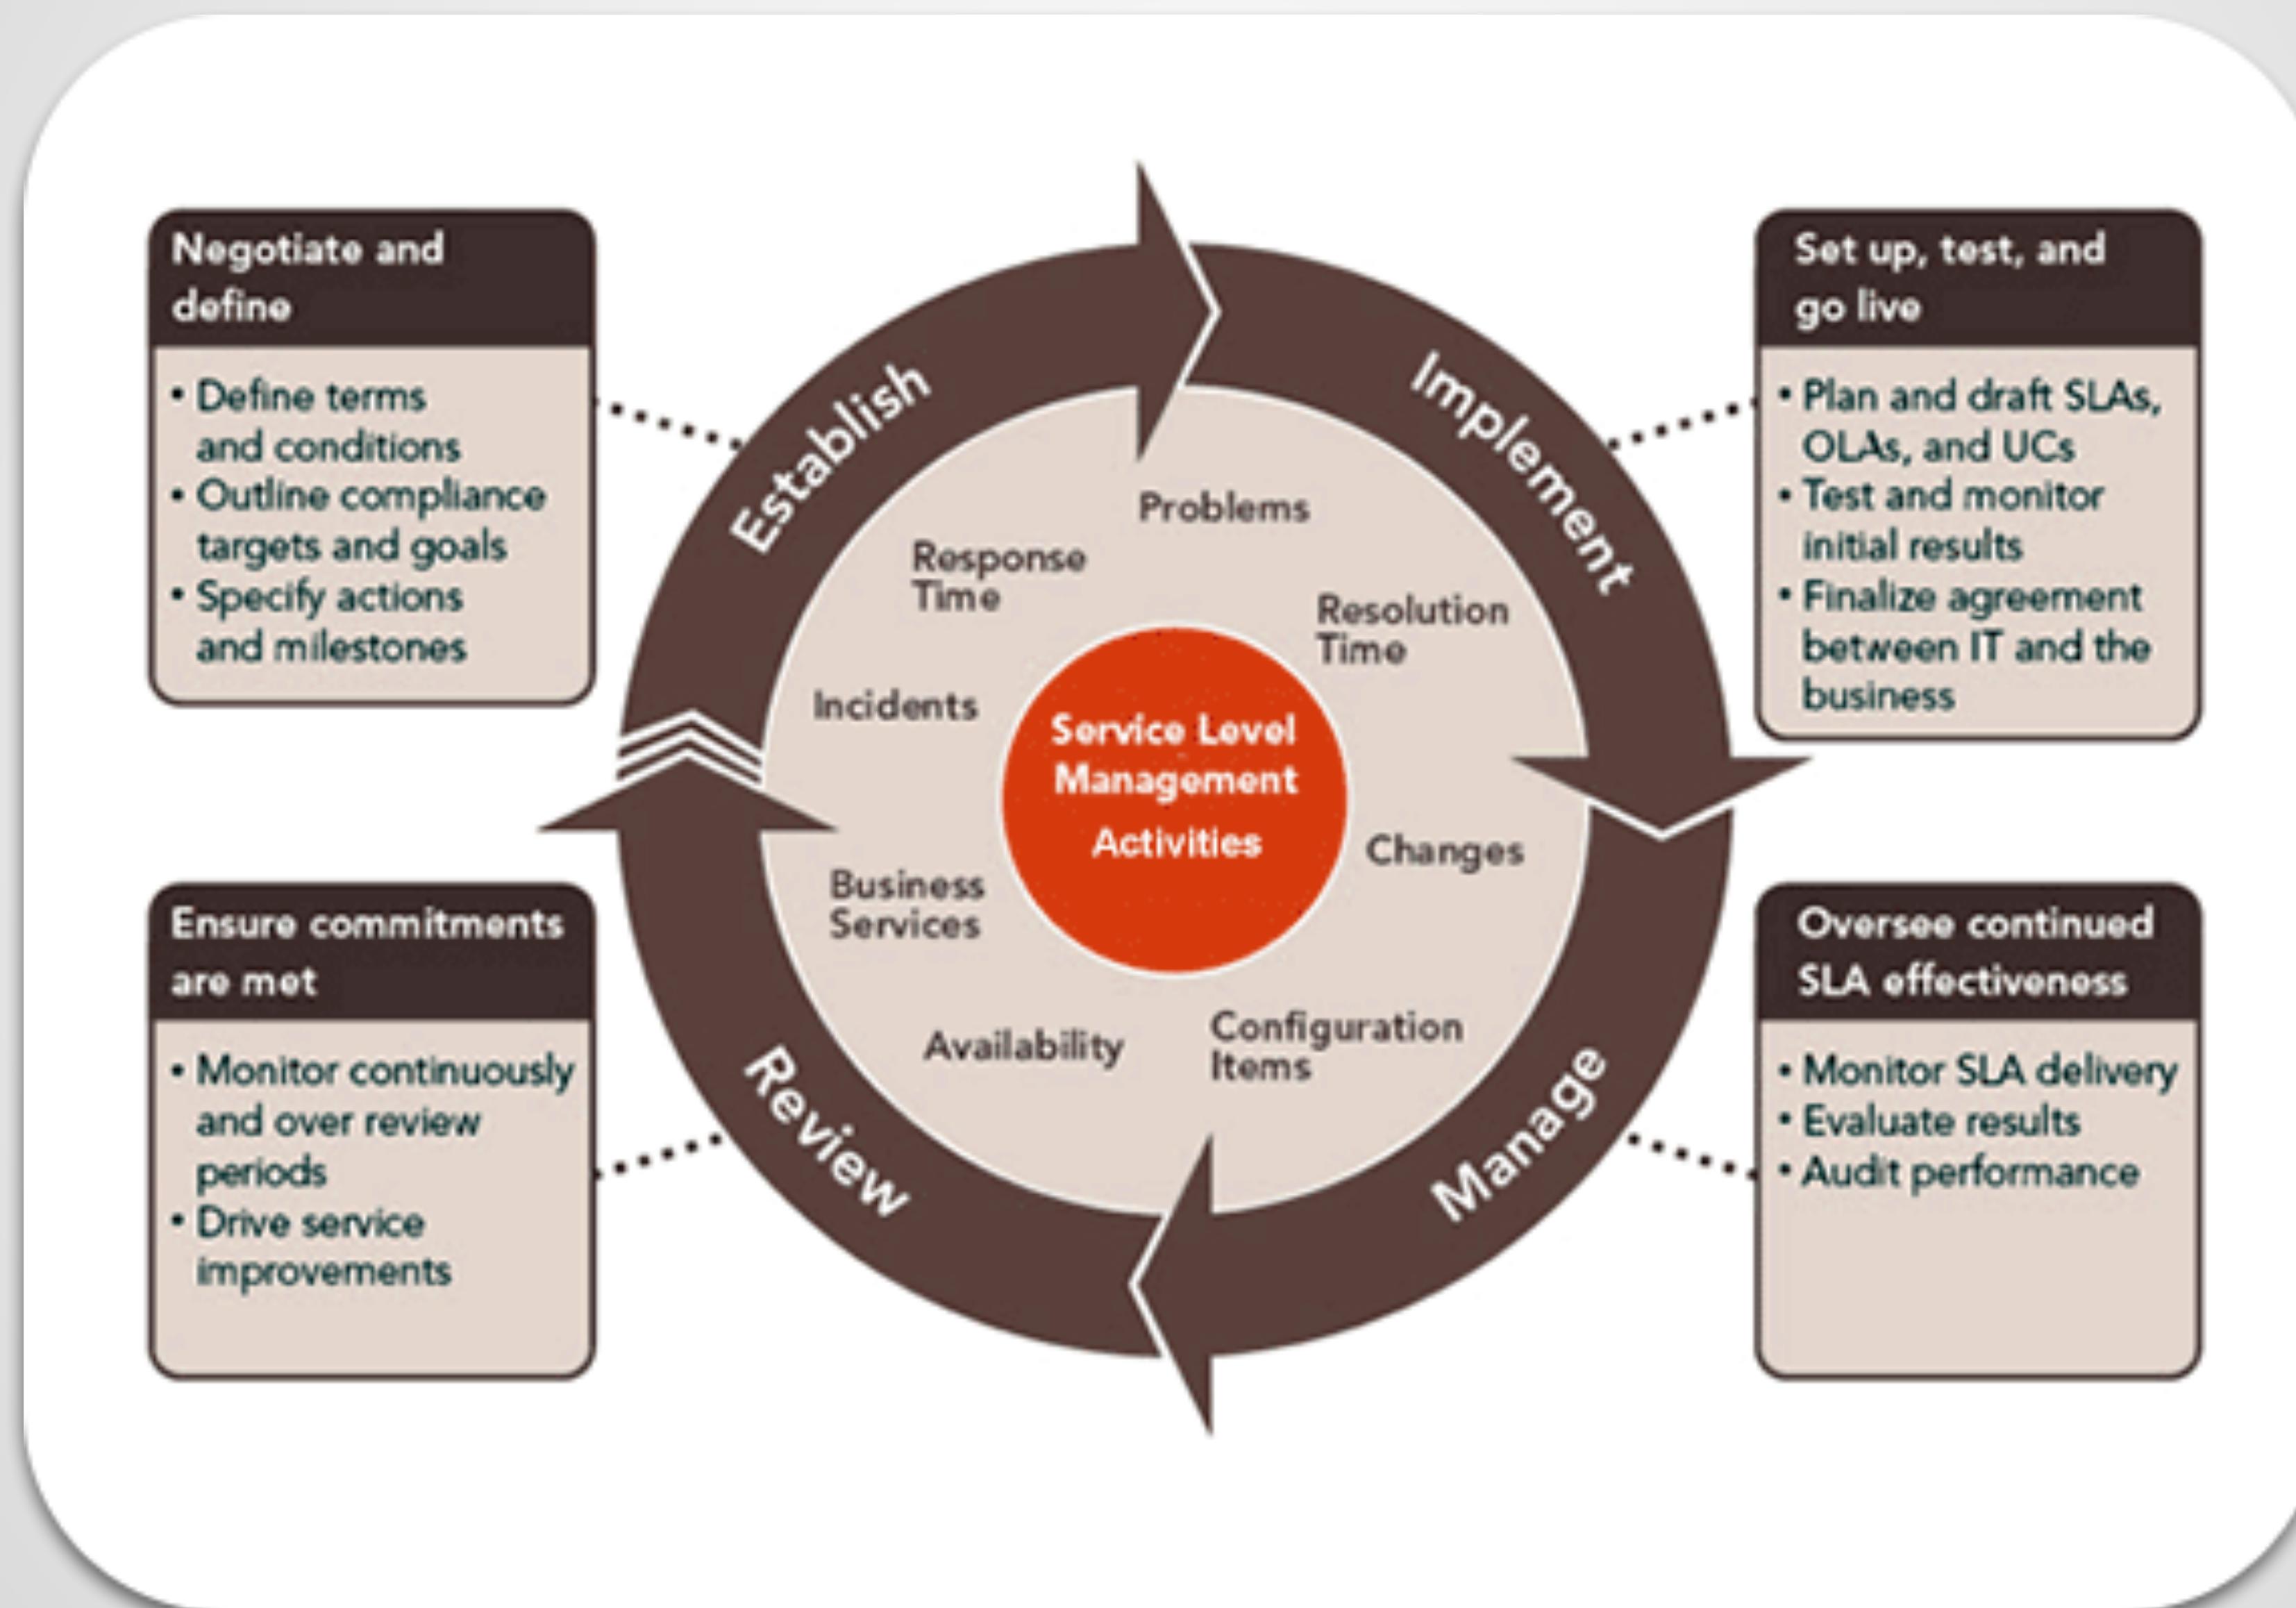

ATTIVITÀ DI AVVIAMENTO

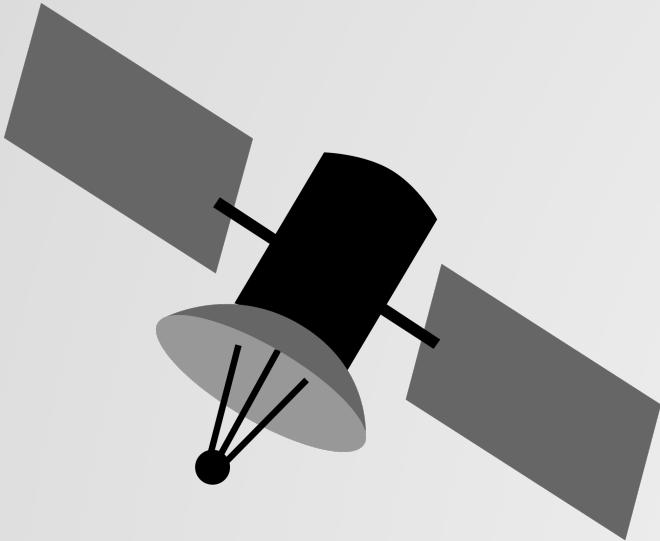

- Formazione
- Identificazione dei requisiti di business
- Analisi dello stato attuale
- Scelta dei responsabili del processo di SLA Management
- **Implementazione del processo di SLA Management per il CGI**
- Gap analysis
- Creazione del Service Catalogue
- **Valutazione degli SLAs, OLAs ed UCs preesistenti**
- Definizione di metriche e KPIs
- **Definizione delle modalità di monitoraggio**
- Valutazione degli SLAs, OLAs ed UCs preesistenti
- Implementazione del nuovo processo di SLA Management
- Inserimento di sperimentazioni e innovazioni nello SLA Mgmt

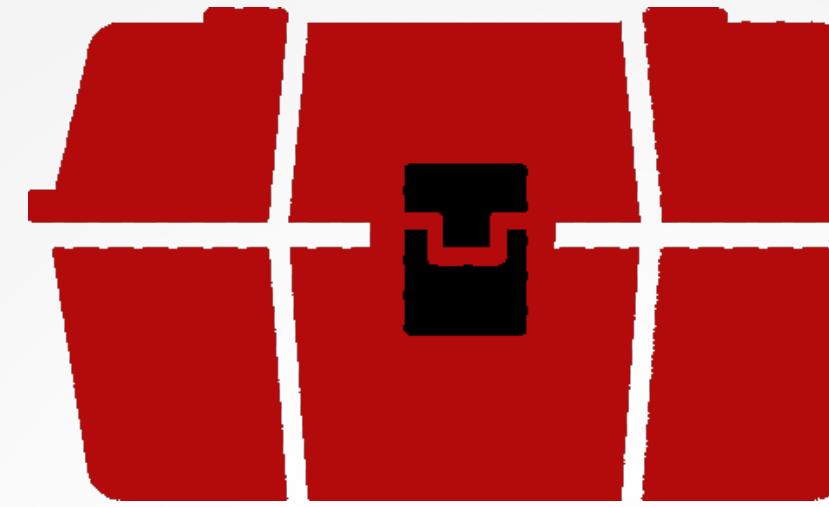

ATTIVITÀ DI CONDUZIONE

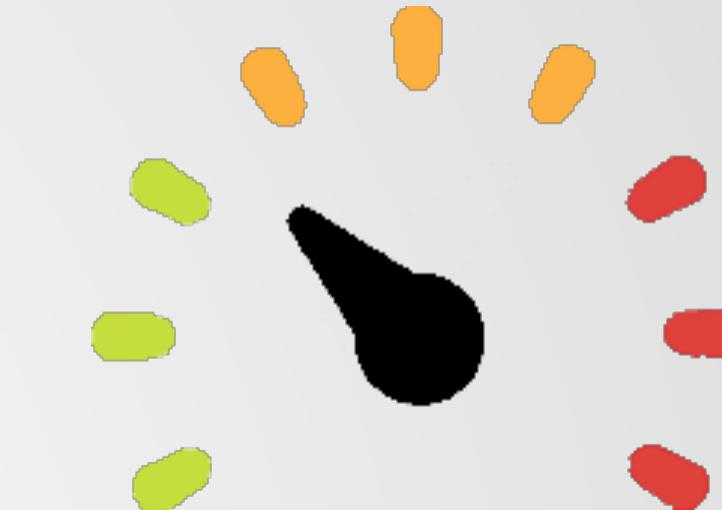

UPTRENDS

Indipendenza dai
target monitorati

Rapidità di installazione
e configurazione

Dati di monitoraggio
sufficienti

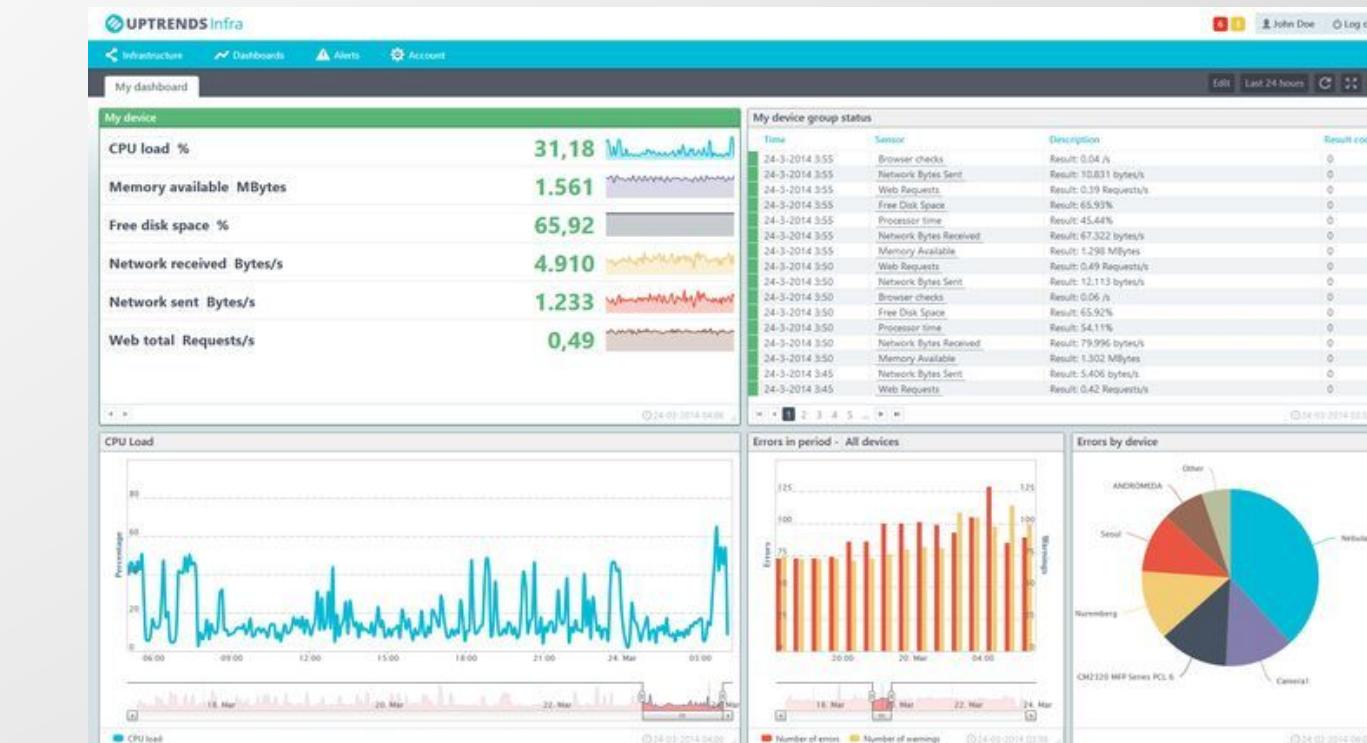

Website Uptime

The screenshot shows the Uptrends website monitoring interface. At the top, there's a navigation bar with links like 'Monitors', 'Dashboards', 'Alerts', 'SLA', 'Account', 'Tools', and 'Support'. Below the navigation is a section titled 'Account overview' with a table of monitors. One monitor for 'GalacticResorts.com' is shown as 'OK' with a green checkmark. A 'User check' section below shows a successful check for 'GalacticResorts.com' at 12/5/2017 5:45:39 AM with a total time of 455 ms.

API

The screenshot shows the Uptrends API monitoring tool. It displays a sequence of five API requests: 1. GET https://galacticresorts.com/api/Destinations. 2. GET https://galacticresorts.com/api/Destinations/{ProductId}. 3. GET https://galacticresorts.com/api/Pricing/{ProductId}. 4. GET https://galacticresorts.com/api/Auth. 5. POST https://galacticresorts.com/api/Reservation. Each step includes fields for 'Request', 'Response', 'Method and URL', 'Request headers', and 'Step description'.

Edit Previous Next Save Reset Help

This optional step creates standard Template/Demo Users in the SAP Solution Manager system.

If you use BI Reporting, you need additional standard template users in the BW system/client. If your BW system is in the same client as SAP Solution Manager, the relevant roles are assigned to the standard user in the SAP Solution Manager system.

You have the following options:

- You can create a new user. The system creates the new user, the corresponding business partner, if necessary, and assigns the relevant copied and SAP roles.
- You can Update or Provide Existing User. If you update an existing user, the system assigns the relevant copied roles and SAP roles to an existing user.

Users

ROLLOUT PLAN

PER L'ISTITUTO GAETANO PINI

a cura di
Jordan Gottardo

MCCXXII

STRUTTURA DEL DOCUMENTO

Basato su vari template

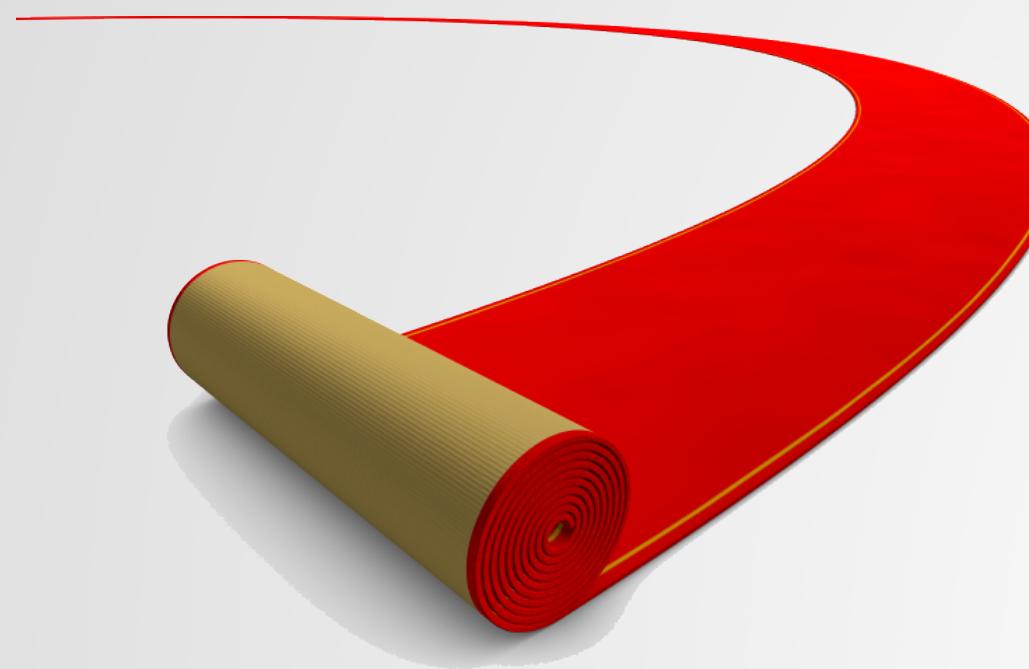

- Project Implementation Plan
<https://goo.gl/LSGktb>
- Rollout Plan, Frank Bergmann
<https://goo.gl/WwY7o4>

Capitoli:

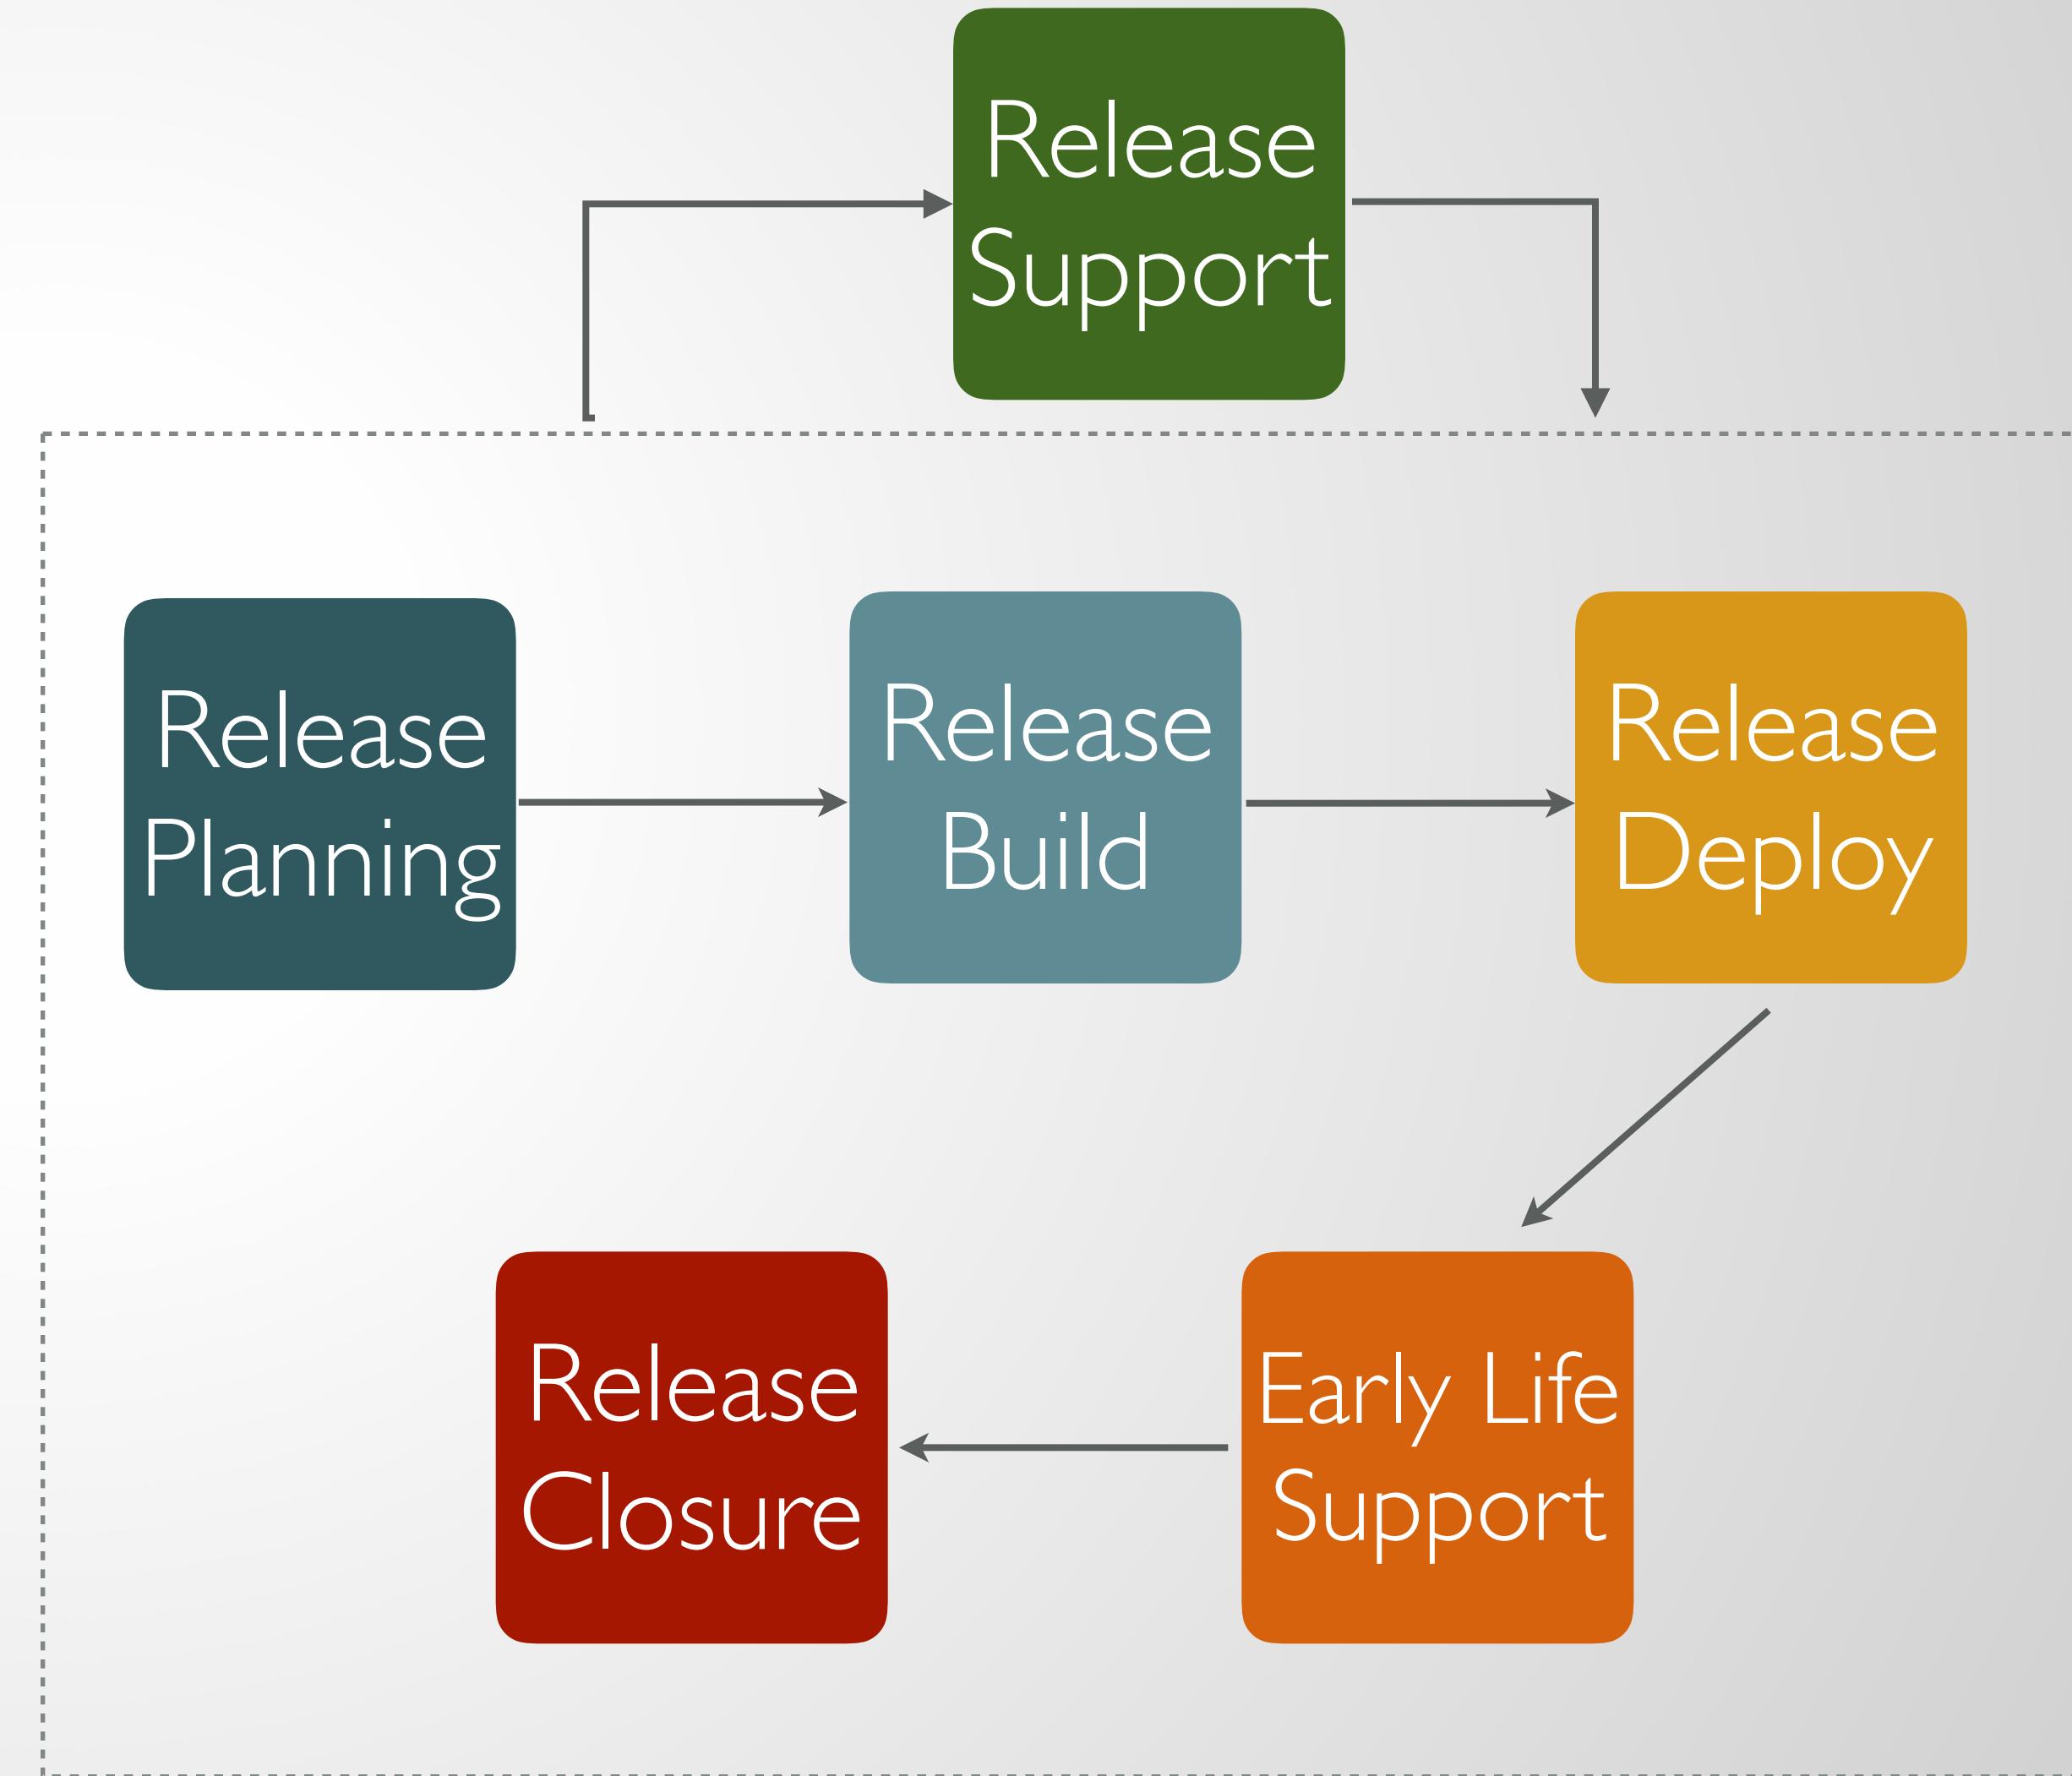

- Panoramica di Gestione
- Supporto all'Implementazione

ROLLOUT ALL'INTERNO DI ITIL

- Fase finale dell'implementazione di un progetto
- Ambito Service Transition
Processo Release and Deployment Management

FASI DELL'IMPLEMENTAZIONE

TIPOLOGIE DI ROLLOUT

Orizzontale / BigBang

Adozione istantanea per tutta l'azienda (go-live)

- 👍 Minor tempo di implementazione
- 👍 Maggiore concentrazione degli sforzi
- 👍 Possibilità di creare hype
- 👎 Maggiore difficoltà nei test
- 👎 No fall-back nel lungo periodo
- 👎 Cambiamento improvviso

Verticale / Phased

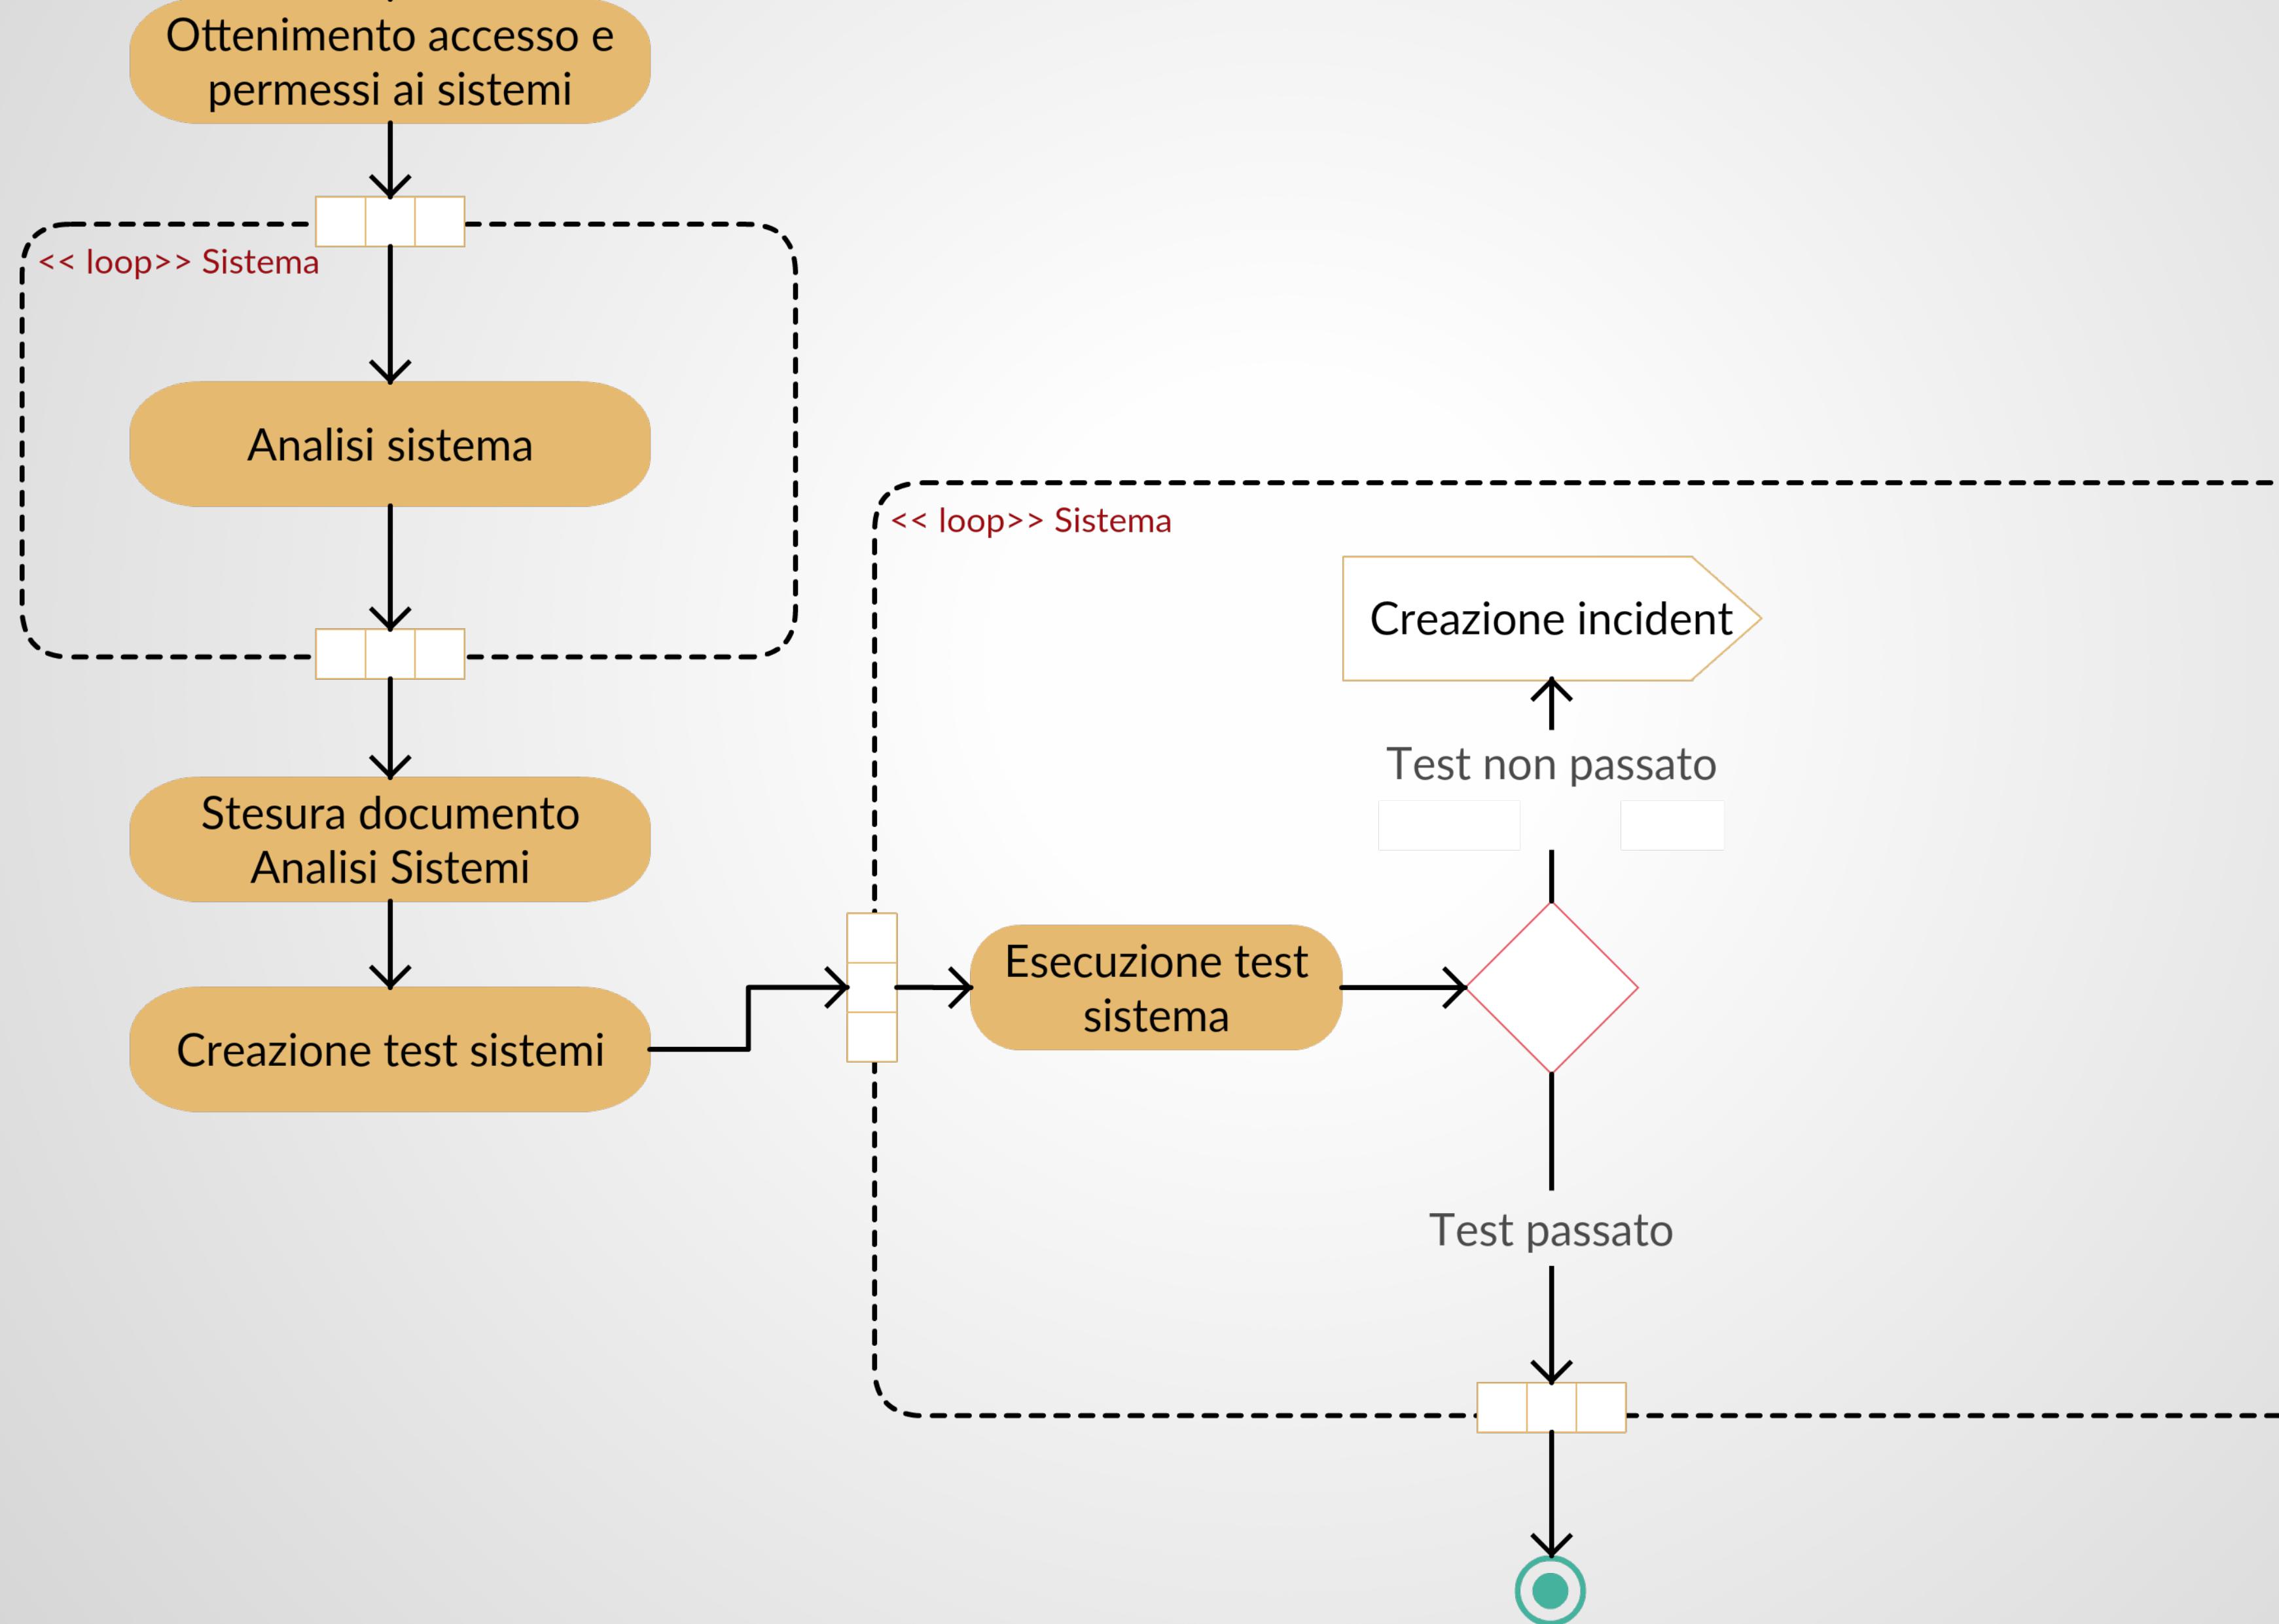

Adozione graduale per modulo, business unit o area geografica

- 👍 Maggior tempo di adattamento
- 👍 Risoluzione graduale dei problemi
- 👍 Maggior tempo per formazione
- 👎 Costi più alti
- 👎 Possibilità di non conformità
- 👎 Difficoltà di integrazione

IDENTIFICAZIONE DELLE ATTIVITÀ

PRESA IN CARICO SISTEMI

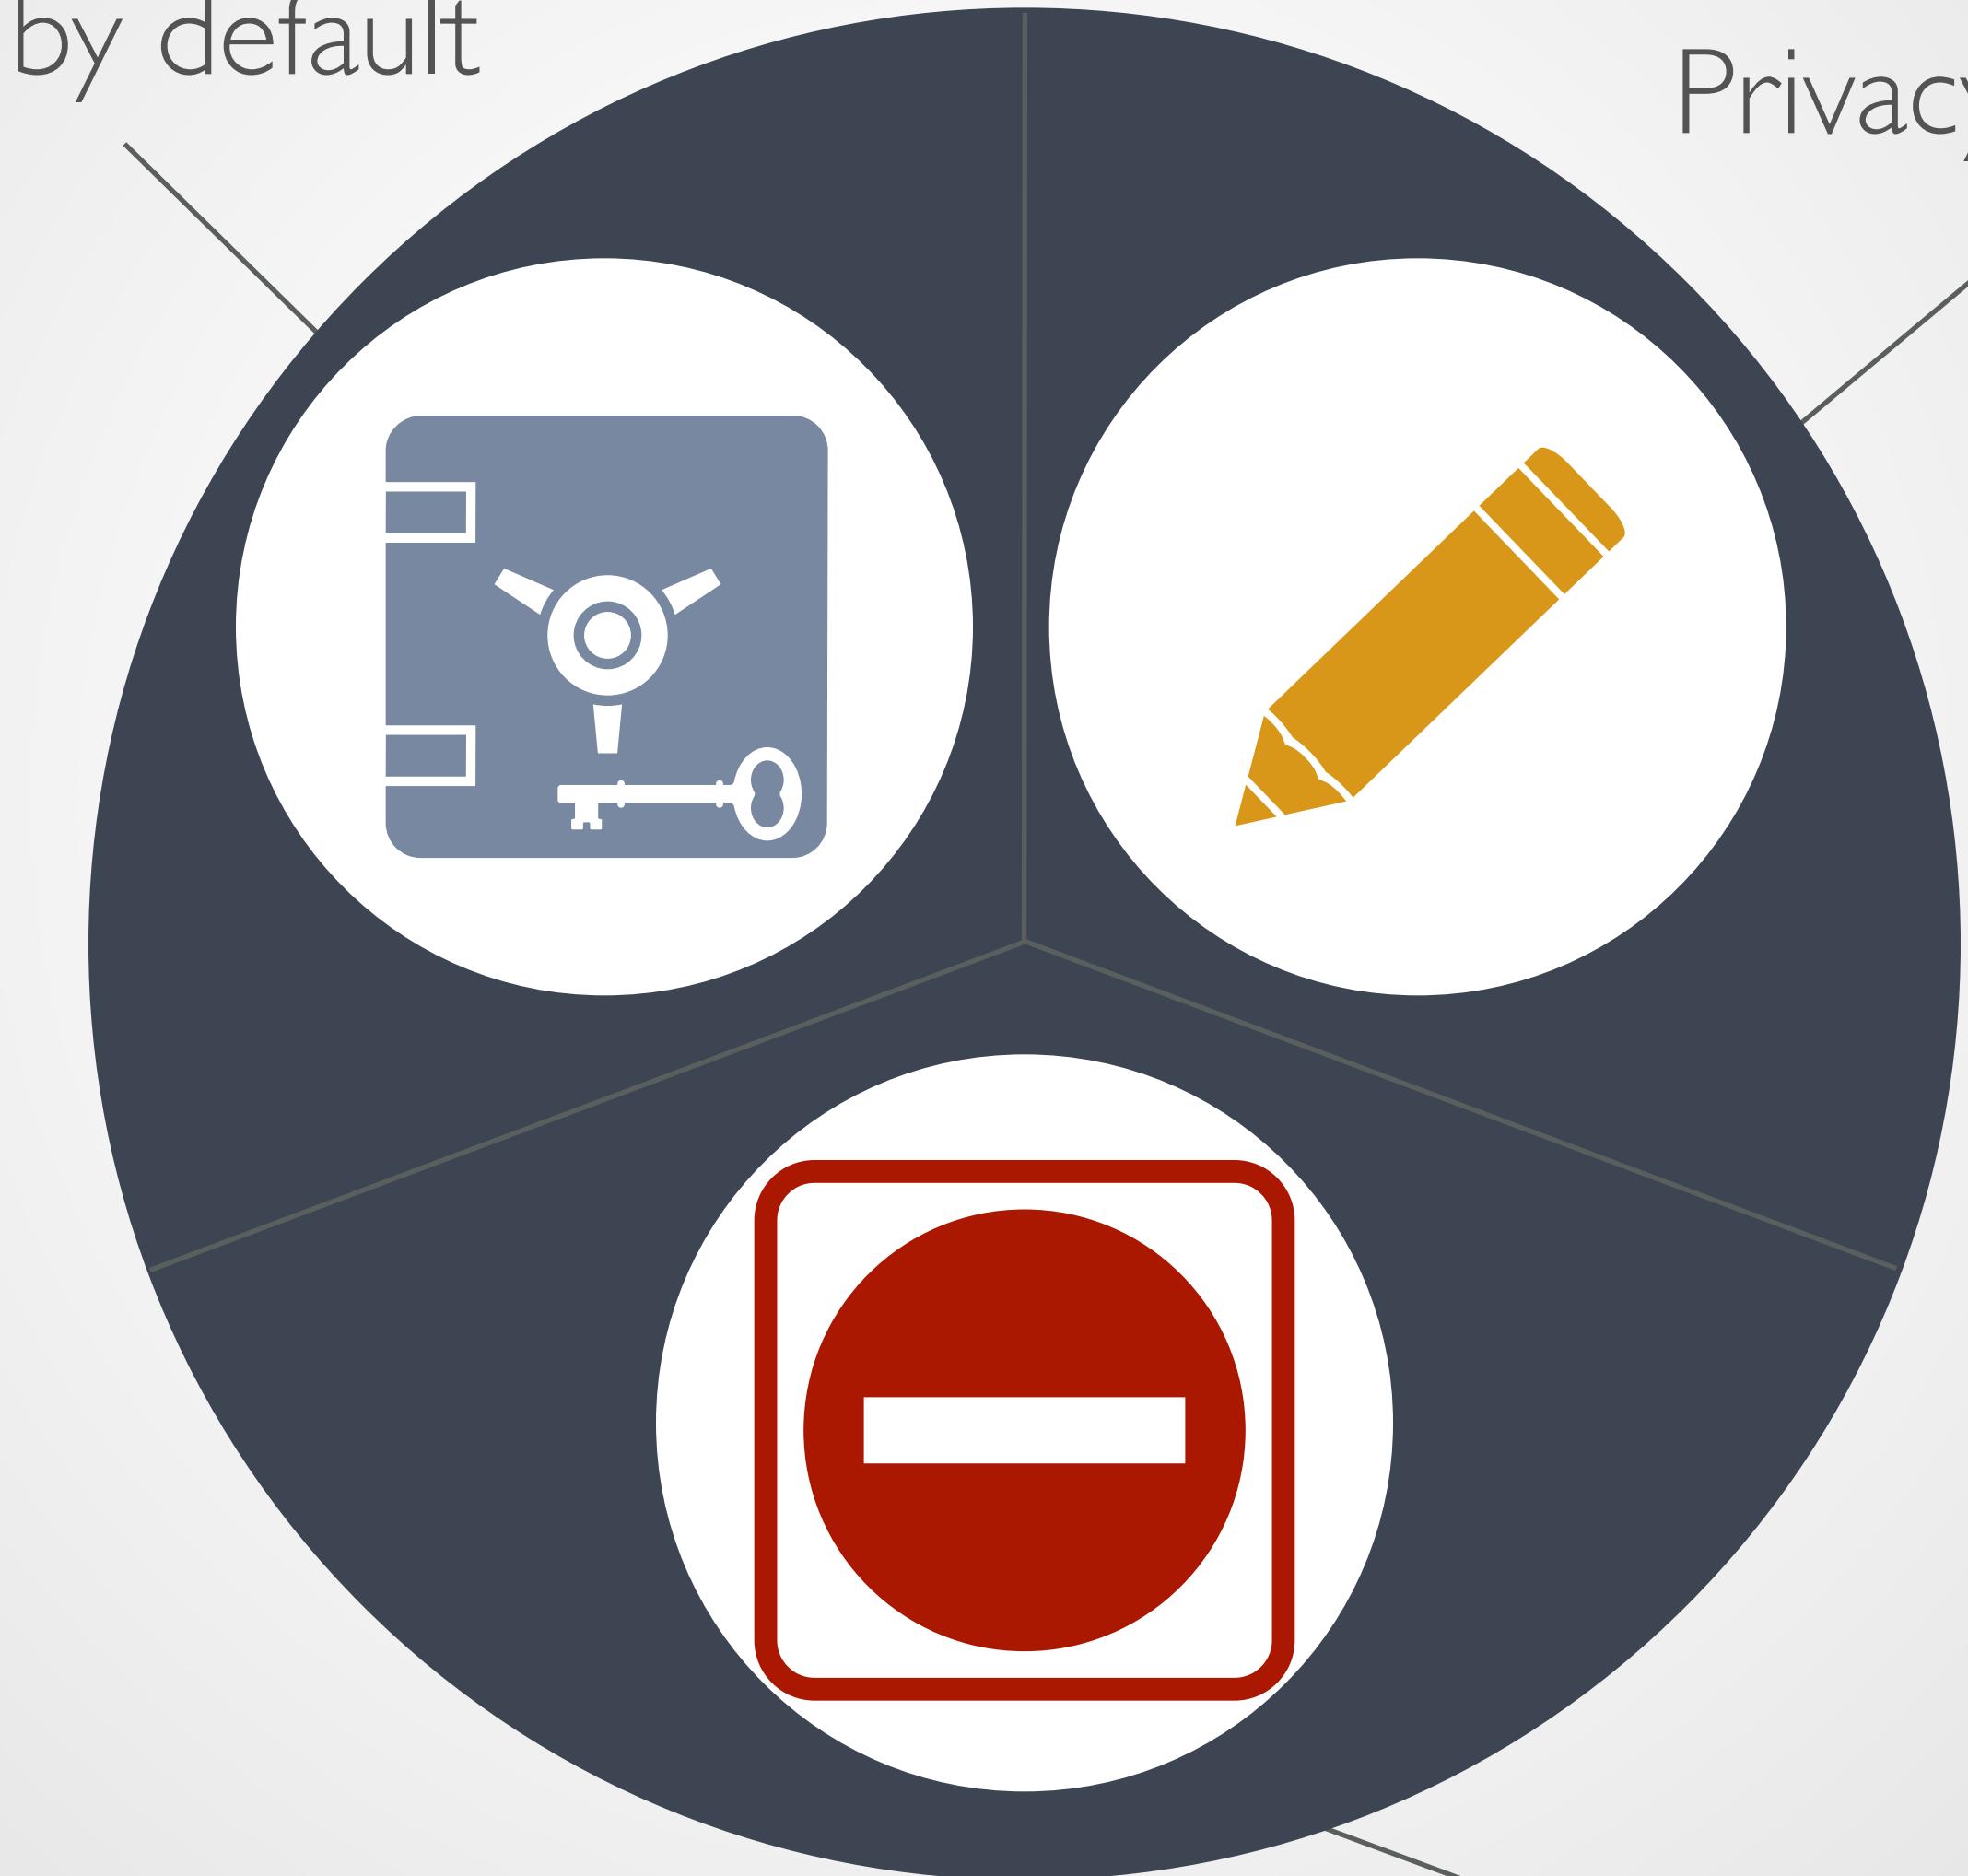

PIANIFICAZIONE DELLE ATTIVITÀ

- Diagramma Gantt
 - Durata in giorni
 - Periodo di investimento
 - Milestones

PRIVACY E SICUREZZA

GDPR

Privacy by default

Privacy by design

Need to know

CONTROLLO DELLE PERFORMANCE

- Misurazioni e metriche
- Tre possibili range:
 - non accettabilità
 - accettabilità
 - ottimalità

..... Soddisfazione del proponente

..... Tempismo esecuzione lavori

..... Rispetto del budget

..... Rispetto degli SLA

..... Risolvimento incidenti al 1° livello

CONTINUITY SLA ROLLOUT
